

VILLA IS HOLDING GUADALAJARA

Will Now Be Able to Begin Movement on Tampico if He Can Get Fuel.

Gen. Villa, following the capture of Guadalajara, will return today or Tuesday to Aguascalientes, according to advice received by Villa agents here. Upon the arrival of Villa at the provisional capital, orders for the vigorous prosecution of the long heralded Tampico campaign will be issued, according to Villa representatives here.

The railway lines between Aguascalientes and Guadalajara and Guadalajara and Queretaro are now in operation, according to the Villa officials. The fall of the west coast city will show the movement of a large number of Villa troops to the east, where they can be used in the Tampico campaign.

Gen. Julian Medina, who captured Guadalajara, has been promoted by Villa to the rank of brigadier. Villa reports received here state. These also declare that he will be put in full command of the west coast campaign and that he will soon begin the invasion of Sinaloa. Practically all of the territory of Tepic, Monclova, the capital, is now held by Villistas. Gen. Ramon Irujo, Carranza military governor of Sinaloa, is reported to have moved most of his forces into Sonora in an attempt to seize the central portion of the state. According to Carranza, advisers, however, the important seaports are heavily garrisoned.

Villa Short of Fuel.
Villa is going to experience great difficulty in moving his troops for the Tampico campaign, according to Carranza agents here, on account of lack of fuel. Some days ago lack of Carranza forces, according to Carranza agents, captured the Mondonia coal fields region and this shuts off the available supply of fuel in the north.

Railroad men here received a report Monday that Villa agents in the east were arranging with one of the large locomotive firms for the changing of

AM fire boxes on engines now in Villa territory, so that wood could be used as fuel.

Marching on Saltillo.
Eduardo Gutierrez, former provisional president of Mexico, is marching on Saltillo at the head of a column of 1200 men, according to advice received by Carranza officials here. He is working up the railway line from the direction of San Luis Potosi. Saltillo, according to these reports, is held by Gen. Martinez Moron, with 500 men. Jose Robles, who was minister of war in Gutierrez' cabinet, is reported to be with his chief. Part of the Robles and Benavides brigades are included in the movement.

Advices from San Antonio received by Carrancistas state that Toribio Esquivel, who was in charge of the "peace conference" that has been meeting in that city, has issued a statement declaring that the conference and Gen. Felipe Angeles are in an entire accord.

Benavides Reported Dead.
Eugenio Aguirre Benavides, former commander of the Zaragoza brigade, who deserted Villa at the time Gutierrez fled the capital, shot and killed himself last Friday, according to Carrancista reports received by Villistas here. According to these reports, Benavides, together with other officers who deserted with Gutierrez, had twice attempted to take Queretaro and had been decisively beaten in each engagement. Benavides is then alleged to have moved toward the city with Villa, but these were refused. Following his failure in this mission, he shot himself, the reports state. His brother, A. Aguirre Benavides, who lives here, stated Sunday that he had not heard of the report, but added that he had received no word from his brother since the break with Villa, nearly a month ago.

To Be Carrancista Agent.
Juan Amador, of this city, will be Carranza's representative at Washington during the absence of Eliseo Arrazola, who has been recalled to Veracruz. Amador, a native of this city, has served in a number of official capacities with the Carranza government. He left Monday for Washington.

U. S. ATTACHES WILL LEAVE MEXICO IF OTHERS DO

Washington, D. C., Feb. 16.—American attaches of the United States embassy in Mexico City, lately attached to the Brazilian legation, will leave Mexico City if all other diplomatic representatives depart.

The state department has informed the Brazilian minister, who has been in charge of American diplomatic interests, that it presumes he will be guided by instructions from his own government with respect to the situation. It asks him to advise the American attaches that they may leave if others do. All the diplomatic representatives there have asked their home governments for authority to abandon the legations if the situation warrants, and most of them have been told to use their own discretion.

GUTIERREZ HAS TAKEN SALTILO, REPORT STATES

San Antonio, Texas, Feb. 16.—Gen. Eduardo Gutierrez with 4000 men is reported to have taken Saltillo. Carranza agents here said the army of Villa forces in Saltillo made but a brief resistance. It is believed here by Carranza supporters that Gutierrez took possession of the city in the name of Carranza or that he proposes crediting it to the first chief of American diplomatic interests. Report it received here indicated exchange of peace messages recently between Gutierrez and Carranza.

EL PASO HERALD

INFORMS NATIONS THAT ALL COMMUNICATIONS MUST BE ADDRESSED TO HIM.

Washington, D. C., Feb. 16.—Further trouble between Venustiano Carranza and the diplomatic corps in Mexico is looked for as a result of Carranza's statement that all communications of foreign governments must be addressed to him. This, it is said, would make it impossible for representatives of foreign governments to conduct business except by going to Carranza, thus practically recognizing Carranza's government.

Carranza's decree, as telegraphed here, reads:

"The first chief of the Constitutional army has been applied of frequent cases in which persons of diverse nationalities, styling themselves confidential or consular agents of foreign governments without really being so, have attempted to make themselves representatives of foreign governments in Mexico in order to make representations, address communications and to treat directly about matters of an international character with different leaders of the Constitutional army."

Tends Toward Rupture.
"This action, even in cases where it is taken by persons actually accredited, tends to disrupt the unity which should prevail in the Constitutional government and to belittle the authority of the first chief of the aforesaid army, with much damage to our cause. The detection of Gen. Francisco Villa and other leaders of the northern division in the state of Coahuila, and the must bear in mind to avoid in the future the lack of political discipline of inexperienced leaders."

"Military leaders before whom such representations may be made must confine themselves to informing the representative of the fact that they should take such matters up directly with the first chief of the Constitutional army."

COAHUILA ARE SIGHTED

Although eight censors are on duty at Veracruz to prevent dispatches unfavorable to the Carranza cause from being sent abroad, it has been learned authoritatively that for some time Carranza has been maintaining a correspondence with the consuls of Spain and Great Britain at Veracruz. These consuls often have found it difficult to carry out Carranza's orders to refrain from sending dispatches to their respective governments in calling to his attention what they considered unjust aggression on foreign property.

WALLEO BLACKSMITH GETS RID OF STOMACH TROUBLE BY USING AKOZ

Says Mineral Gave Relief From Ailment in Less Than a Month

"How I was ever going to get rid of the stomach trouble and indigestion pains that had bothered me for the last two years I did not know, but the Vallejo solved the problem," declared Robert Burns, who conducts a blacksmith shop at Marin and York streets. "Honest Bob," as he is called by his friends, resides at 716 Main street, Vallejo, Calif., and tells of his recovery as follows:

"Off and on for a long time stomach trouble has been troubling me, and two years ago indigestion pains got so bad I could hardly attend to my work. I tried to get the Georgia stomach pill without stopping to get my breath in and in spite of what I used it kept getting worse. I read of Akos treatment, introduced me in Vallejo, and decided to give them a trial. Drinking the mineral water four times a day as directed has made a big difference in my condition. The four weeks I have been taking it has practically eliminated all traces of the trouble, but I am going to take it a few weeks longer to make sure it won't return. Right now I feel fine; can walk anywhere without effort and I am doing the hardest of the work in my shop. Vallejo people will appreciate this remedy if they will try it as I have done."

This is only one of the many cases in Vallejo that are responding to the

You've had trouble frying oysters or having them fried right for you. Now look at these. Notice how greaseless—how dry and crisp on the outside. They're moist and delicious on the inside. You put your teeth through the outer crust and get the real and only oyster taste on the inside. These are Crusto fried oysters.

Because Crusto is odorless and tasteless itself it preserves the food flavor uncontaminated. Because it can be made "red hot" without burning, it cooks a grease-preserving shell on the food before any grease has a chance to soak in—before the food juices can dribble out.

Crusto helps good cooks to be better cooks. Better than hard and as cheap—cheaper than butter and better.
